New York, N. Y.

Gentlemen:-

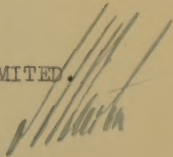

Will you kindly inform us whether you  
publish illustrated, descriptive books, or booklets,  
on Greek coins, and on Roman coins.

If you have no such publications, we  
should esteem it an especial favour if you would  
kindly inform us which you consider are the best books  
on this subject.

Yours truly,

HB/KW.

BURTON'S LIMITED.

Burton's  
1243 St. Catherine Street West  
Montreal, Canada

Gentlemen:

Referring to your letter of March 21st, the standard authority on Greek coins is Head's "Historia Numorum" published by the Oxford Press. There is no general work on Roman coins as a whole. Mr. Hill's "Handbook of Greek and Roman Coins" provides considerable information, and a handbook of Roman coins issued by the British Museum, is also serviceable. As a general introduction, Macdonald's "Coin Types" is invaluable.

If this information proves of service to you, I shall be very glad.

Yours very truly,

Secretary.
